

Amendments in the Specification: (struck-through parts deleted and underlined parts added)

In the paragraph beginning at page 5, line 10:

5 A housing 12 is provided. A switch 14 is positioned in the housing 12 and is
electrically coupled to a power supply 5. The housing 12 may either be mounted in
within a dwelling wall 6 or may include male electrical prongs 16 electrically coupled to
the switch 14. The prongs 16 ~~which~~ may be extended into a conventional electrical
power outlet 7. If prongs 16 are utilized, the power outlet 7 performs as the power
supply to the switch 14. If the prongs 16 are not utilized and the housing 12 is mounted
10 in the wall 6, then the switch 14 is preferably hardwired to the electrical wiring 8 of the
dwelling. At least one electrical plug outlet 18 is mounted in a front wall 19 of the
housing 12. The plug outlet 18 is electrically coupled to the switch.
